## IPO Advisory Services

Do you need more capital to expand your business? Do you want greater and easier access to future capital? Do you want to get your business ready and attractive for a potential merger with or acquisition by another company?

Getting your company public listed is usually a complicated and costly affair. Many companies typically spend millions of dollars trying to get an IPO and still fail.

However, you don't have to figure out the IPO process alone. iBosses has a proven system which enabled it to go from **Idea to IPO in only 11 months**, and now we can show you how!

Our relationship starts with you asking one crucial question:

## Am I Doing It Right?

- How do I know if my business is good enough to list?
- Where do I begin the IPO process?
- What is the system for getting my business ready for listing?
- How do I list for a fraction of what it usually costs?
- Is it possible to list my company within 12 months?

**Much more than just a consulting exercise, our IPO Advisory is a tailor made process where our experts will work closely together with you every step of the way to...**

- Customise your IPO strategy, planning and execution.
- Transform your business for the digital age.
- Implement total quality management systems.
- Develop franchising and licensing systems.
- Replicate your business in other segments and markets.
- Form your Board of Directors for IPO.
- Assist with fund raising.

## Entrepreneurship Maturity Model™

The iBosses methodology is based on Dr Khor's **Entrepreneurship Maturity Model™**, a systematic approach that identifies the eight stages of your business' evolution.

iBosses' **IPO Advisory Services** allows you to work closely with our experts to develop and implement advanced business strategies from levels 6 to 8, utilising the same system used to list iBosses in 11 months.
